WORK EXPERIENCE

Gazprombank, Moscow, Russia • Dec 2022 – Current
Gazprombank is a major financial institution with a strong focus on IT, developing secure, scalable solutions for banking, payments, and digital services. It operates as a tech-driven company, investing in innovation, infrastructure modernization, and digital transformation to support its extensive financial operations and client services.

Frontend Software Engineer

- Developed and translated 20+ UI design frameworks into code using HTML, CSS, JavaScript and TypeScript
- Refactored and enhanced React components resulting in 25% code reduction
- Converted legacy features and class components into functional components with React hooks enhancing performance up to 12%
- Configured and managed version control through Git
- Worked in an Agile-driven environment to effectively maintain project timelines and utilize available resources
- Collaborated closely with back-end developers, UI developers and visual designers to ensure projects or applications provide an overall good user experience
